### CURLERS' SEAT AT UNITED CHURCH SUNDAY

### CROWS' NEST CHAPTER LODGE HOLD ANNUAL MEETING

The secretary of the Blairmore Curling Club has accepted, in behalf of its members, the invitation extended by the minister of the Central United church to attend a special service for curlers on Sunday evening next, March 18th, at 7.30 o'clock.

The public are cordially invited to attend this service. The hymn selections will be familiar to all; the message will be "Life: A Matter of Getting the Broom."

The service will provide an occasion for sincere worship to God and helpful fellowship with one another.

**"TRY SERVED TILL DEATH: WHY NOT WE?" MOTTO**

At the annual meeting of Crows' Nest Chapter of the L.O.D.E., held recently, the report for the year was submitted as follows:

Officers: Mrs. R. Howe, hon. regent; Mrs. J. E. Upton, hon. vice-regent;

Mrs. J. Baird, regent; Mac W. A. Vaughn, first vice-regent; Mrs. G. Bond, second vice-regent; Mrs. J. Patterson, secretary; Mrs. E. Neville, treasurer; Mrs. J. McMillan, educational secretary; Mrs. J. McMillan, Echoes secretary; Mrs. R. Howe, standard bearer.

During the year there were ten regular, one executive and six special meetings held, at which a very keen interest was taken by the members; also a splendid attendance was recorded. These meetings are held at the various homes. After the regular business, a social hour is spent, when tea is served and a collection taken to augment the relief and general funds alternately.

Five new members were enrolled.

Prizes were presented to the pupils attaining highest marks in Grade V. At the school. The winners included Mabel Snod and Carlotta Fleming, who tied with 88 marks, each receiving \$5.00. Bobbie Hammer came second with 87 marks, receiving \$2.50. This is an annual event. An Empire tea was held at the home of Mrs. Ed. McDonald. Calendars were donated to the schools. Flowers were given to the sick.

A very successful Remembrance Day dance was held, and a nice sum of money realized therefrom. This was divided between the relief and general funds.

Blairmore Lodge B.P.O.E. donated

£100 to the Chapter to be used for relief work only. This was greatly appreciated. The money was placed in a separate fund and used for child relief work. The fund is now closed.

The relief committee very ably distributed clothing, shoes, rubber-gloves, milk, tonics, layettes, Christmas cheer, etc.

At the beginning of this year, a relief society was organized, to make over clothes to help the needy.

Contributions were made as follows: Stewart Endowment Funds, Wood's Christian Home, Crows' Nest Pass Musical Festival, Christmas cheer, Lacome Home, Assimilation Fund, Bursary Fund, Boy Scouts' swimming-pool, prizes, calendars, glasses, and to Mrs. O. E. Edwards' memorial work in India.

**A WORD ON PRINTING PRICES**

Salesmen for city printing offices

solicit orders from small town stores, quoting on quantities of usually 5,000.

Most country stores only require a 1,000 order, and compare 1,000 price with 5,000 price. The local printer can

equally as good a price on the large or small quantity as the city firm, besides which a saving is effected by buying locally in express rates,

which the customer pays on goods ordered from the city. Always get the local printer's price by telephoning.

Phone The Enterprise for printing—not "typewriting."

In connection with the forthcoming East Kootenay Musical Festival, to be held at Cranbrook on April 26, 27 and 28, a window-card and limerick competition is being staged, size of window-card not to exceed 16 x 22 inches and subject matter must advertise the festival, the words "Fourth Annual Musical Festival, Cranbrook, April 26, 27 and 28, 1934," to be included in the lettering. Open to high school students only. Prizes, \$5.00 first; \$3.00 second, and season ticket for third. For the limerick, open to all public and rural schools of the district prizes similar. The Cranbrook festival is sponsored by the Pythian Sisters.

Order directing J. J. Maloney to file particulars, within ten days, of his claim for alleged expenses while

imperial wizard of the Ku Klux Klan, Realm of Alberta, was granted by Mr. Justice Tweedie in Edmonton last week.

### BLAIRMORE PUBLIC LIBRARY

Books being placed on the shelves this week are:

"Murder in the Willits Family,"

Hufa King; "Young Man of Manhattan," Katharine Brush; "Wildfire," Margaret Dell Houston; "The Great Mogul," Louis Tracy; "The Under Dog," F. Hopkinson Smith; "Porjon," Cynthia Stockley; "The Flaming Forest," James Oliver Curwood; "Hugh McAlister," Little Jack Rabbit's Big Red Book," David Cory; "Big Whiskers in an Aeroplane," Frances Montgomery.

The Library hours are Tuesdays,

Thursdays and Saturdays from 7 to 9 p.m. The fees are \$1.00 for residents and \$2.00 for non-residents per year.

Unemployed of the Town of Blairmore, wishing to use the library, may call any night the library is open and get a membership card free.

"Fresh from the Gardens"

The World's Great Handicap

In an address delivered recently at Watsaw, Sask., Professor Swanson of the University of Saskatchewan, said he could see signs on the horizon of a return to economic sanity, but "fear is in the way." He said: "International fear, political fear, biological fear, fear of Japan, economic fear. Life is overshadowed and overclouded with fear. The time has now arrived," he added, "to take place of leadership in our country, in overcoming these fears. On the Western plains there is no place for this fear."

Then in the United States we have Bruce Barton, one of the most observant and sane writers of the day, pointing out that the economists seem pretty well agreed that the bottom of the depression has been reached and passed and that business is fundamentally better all over the world, while of his own country he says it is now in the position of a sick man on his way back to health; that while a great many medicines are being applied, some of which probably help the patient's recovery and some of which hurt, the important fact is that health is returning, and that the country can stand a considerable dose of patent medicines without permanent harm, and that when the country is really healthy it will throw the most radical doctors and medicine bottles out of the window, discharge the most radical doctors, and go on its way.

Bruce Barton, however, points to two very important things for people to remember and heed. It is, he says, vitally important to keep an open mind. Things never again are going to be the same as they were; on the other hand, they are not going to be so entirely different as some enthusiastic people would have us believe. It is, he says, no use sighing for the return of the good old days; it is even less useful to assume that all the past was bad and must be discarded. His advice is: "Keep moderate; keep flexible."

Most important, says Bruce Barton, "fight all fear", and he urges that the words of Thoreau be placed where they can be seen every day: "He thinks it is so much to be feared as fear. The sin that God hates is fear. He thinks atheist innocent in comparison."

It is undeniably true that fear is the great obstacle to a return to more normal conditions throughout the world. It is fear that prevents disarmament and continues to impose upon the taxpayers of the nations the crushing burden of huge armaments, navies, air fleets, and the whole complicated paraphernalia of war establishments. It is fear that leads nations to erect hostile tariffs against the goods and products of other nations. It is fear that is keeping until millions of money locked up instead of it coursing through all the channels of business and providing work and wages for countless thousands at present unemployed. It is fear that is distorting the minds of people and making them the easy victims of others who preach the gospel of discontent and despair.

Fear never makes for progress. Being destructive of constructive thought and initiative, it acts as a brake on progress, preventing the launching of new enterprises, discouraging expansion and further developments. Through the engendering of timidity and lack of self-confidence, fear leads man to withdraw into himself and behind ironclad protective devices wherein he can be safe but does nothing else. In a word, fear makes him a coward with a coward's outlook on life and its responsibilities.

It is the future of which most people appear to be fearful. They decline to recognize and accept the lessons and experiences of the past as having any bearing upon or offering any guide for the problems and experiences of the present. Instead, in their fear, they say present difficulties are different from anything ever before known, and consequently neither they nor any other person or persons know what to do or what ought to be done.

So, in their fear, they will not take actions which would not only accomplish something but would inspire others to action, and the cumulative effect of which would be a solving of difficulties. Work would be provided for hundreds and thousands of people now idle, if others having some resources would take their courage in their hands and proceed to have this, that or the other little job done which demands attention. But, no, they will not venture even a small expenditure and thus they retard progress and help to perpetuate a condition of things which, if continued, will mean their own ruin.

Wise parents seek to overcome fear on the part of their children. They do it judiciously but persistently because they realize that the obsession of fear is the greatest possible handicap in life. Wise leaders of the Canadian people in all walks of life should join forces in waging war on fear which now possesses so many, and they should join battle with those who are engaged in capitalizing fear as an agency in the advancement of feelings of economic despair.

## Saskatchewan Homesteads

Special Consideration To Be Given To Veterans Of The Great War

Granting special rebates to veterans of the Great War who served in an actual theatre of war, but also applying to all purchasers to the extent that free homesteads are practically obtainable again in Saskatchewan, new land regulations, retrospective to 1929, will shortly be announced by the government. Under the new regulations all provincial lands for sale will be advertised with their classification. Interest charges for 1933 and 1934 have already been forgivens, and if conditions warrant, no interest will be charged in 1935. But, in any event, the rate will be cut two per cent. Several thousand buyers will benefit.

A factory at Siron, Maine, turns out approximately 50,000,000 toothpicks daily.

## Household Drudgery

## The Bane of a Woman's Life

Nature intended woman to be strong and healthy, but of weak and helpless, not how can a woman have good health when she has to do much of the household drudgery without any relaxation. Is it any wonder she becomes nervous and irritable, has hot flushes, faint and dizzy spells, shortness of breath, sinking and smothering sensations, and can't sleep at night?

Women who are weak and run down will find in Milburn's H. & N. Pills a remedy to strengthen the system and bring back the much desired health.

## Act May Be Revised

Amendment Of Canadian Constitution Is Now Under Consideration  
Revision of the Canadian Constitution to bring it into harmony with present-day conditions is under consideration by the federal authorities.

Tremendous changes in the business and social life of the Dominion have occurred since the British North America Act was drafted and while Sir John A. Macdonald and the other Fathers of Confederation are rated among the greatest statesmen the country has produced, it is now recognized they could not foresee all the developments of the last half century or more.

There are many ways in which the federal and provincial jurisdictions apparently clash, including radio, aviation, insurance, companies acts and other matters which were not contemplated when the B.N.A. Act was framed.

Amending the constitution, if it comes, will be brought about by an address of both Houses of the Parliament of Canada to the Parliament of the United Kingdom. Consent of the provinces is not absolutely necessary, but the government of Canada would hesitate to seek changes without the consent of the provinces.

Revision of the constitution would be a task requiring considerable study, and it is suggested here that the matter might very well be referred to a special committee of the senate, which is singularly well equipped with legal talent.

## Answering Hurry Call

Firemen Were On Their Way But Forgot Address

From a member of the faculty of Sarah Lawrence College in Bronxville we have heard about the shock a Scarsdale family had one night about a quarter past eleven. Mum and Daddy and the kiddies had all gone to bed when they heard the screaming and running of fire-engines outside. The husband just turned over in bed, but the wife got up and ran to the window. She saw three or four fire-engines standing practically at her curb, puffing and churring. And suddenly her doorbell rang. Shouting at her husband (who still didn't get up), she threw something about her shoulders and went down and opened the door. "Can I use your phone, lady?" asked a big fireman standing there. "Yes," she said. "Where's the fire?" "Gotta find out," he said, brushing past her. "We all forgetta address." —The New Yorker.

## Wingless Rooster In

## Smithsonian Institute

Only Known To Science Where Such Birds Have Lived

A wingless rooster recently received by the Smithsonian Institution has defied precedents established by fowls that have been hatched without wings heretofore by living to grow into healthy adulthood minus the customary appendages. In all other such cases known to science the wingless birds have died while still young chicks.

The present specimen was found in the flock of Mrs. Olio Deering, of Rosedale, Ky., who sent it to the institution. In behavior seems to be normal for most ways, but it will make jumps that might not bother an ordinary chicken. It hatched a long time, for instance, before jumping from a table to the floor to obtain food, even when it is very hungry.

## Far-Seeing Romanticist

Frenchman Predicted Phonograph Long Before It Became Reality

Admirers of Theophile Gautier, the great French romanticist, point out that he foreshadowed the phonograph many years before it became a reality. In 1847 Gautier wrote in La Presse: "One day we will be able to make a piano which will record and preserve the vibrations of sound, and thus conserve and perpetuate a melody by means of a machine, by Rachel, or a couplet by Frederic Lemaire. Thus we shall be able to keep hanging on the wall the serenade of Don Pasquale, the imprecations of Camille, the love declarations of Ruy Blas—records of an evening when the artiste is in good form."

Wife (during domestic argument): "I think you are very unreasonable, John."

Husband: "I certainly was. I expected you to be reasonable."

In eradicating weeds it is of great importance to know whether the weeds are one-year, two-year or many-year plants.

Wife (during domestic argument): "I think you are very unreasonable, John."

Husband: "I certainly was. I expected you to be reasonable."

Women who are weak and run down will find in Milburn's H. & N. Pills a remedy to strengthen the system and bring back the much desired health.

## In Times Of Emergency

Central Bank May Not Have Elasticity Of Finance Act

Present and future ministers of finance will have a fairly rigid advisory right to "aid" them when the new Central Bank is established and operating. But those of them who are individuals may find, in moments of crisis, that the central bank will hamper them in working out the best solutions of emergency situations.

During the war, Sir Thomas White gave Canada's affairs a financial direction that was masterly. He sought and obtained advice from the best possible sources but having no permanent advisory body to bother him he was not tied down to conformity to their prejudices and red tape.

Likewise, the Finance Act to-day has an elasticity about it that greatly helps the Minister of Finance in meeting the country's financial problems.

There is a classic story about the Westerner to whom Sir Sam Hughes offered a commission. The war minister asked this man if he wanted to join the infantry or the cavalry. The reply was "The infantry." We get into trouble I don't want to be hampered with no horses."

In days to come many a finance minister, finding conditions such as those exist to-day, may wish that he were not hampered by "no horse."

Financial Post.

## Kubelik's Fingers Valuable

Famous Violinist Has Them Insured For Large Sum

The fingers of Kubelik, the violinist, are heavily insured. The first, second and third fingers and the thumb of his left hand are insured for \$13,500 each; the little finger is insured for \$11,000.

The right hand is cheaper. The first, second and third fingers are marked up at \$34,500 for the three. The thumb is assessed at \$4,500; the little finger at \$2,350.

The population of the Soviet Union is about 40 million more than that of Continental United States.

More than 900 airmen's lives have been saved by parachutes since 1926.

Austria now has less than 280,000 registered unemployed.

## Worse Than Pestilence

Alarming Increase In Number Of Motor Car Fatalities

That the automobile is a destructive and death-dealing machine is again indicated by the appalling number of fatalities in the United States due to motor accidents. Figures compiled by an insurance company show that 29,900 Americans were killed in auto mishaps last year; and while this is only a small increase over the total for 1932, the dismaying fact is revealed that the death list was proportionately a good deal higher.

Thus it is pointed out that the death ratio of fatalities to the number of accidents has increased nearly six per cent, and that the increased number of deaths occurred despite the fact the total auto registrations and gasoline consumption had dropped.

The annual death toll exacted by the motor car both in Canada and the United States should occasion serious thought. If some pestilence were sweeping the country we would organize all our forces to check it. We should not sit idly by and accept the frightful auto death toll as one of the inescapable hazards of modern life.

## Apricot Custard Tarts

$\frac{1}{2}$  cup sugar  
 $\frac{1}{2}$  teaspoon salt  
1 cup milk  
 $\frac{1}{2}$  cup mashed stewed apricots  
1/2 teaspoon lemon juice  
1 tablespoon Benson's Corn Starch  
1 cup scalped milk  
1/2 cup cream  
3 tablespoons sugar  
2 eggs white.

Mix and sift together the first quantity of sugar, the salt and corn starch. Add the mashed apricots and cook in double boiler until thickened. Add well beaten yolks and cook for a minute longer. Stir in the white and cool. Pour the mixture into previously buttered tart shells and cover with meringue made by adding the cold stewed apricots to the second quantity of sugar and the lemon juice to the stiffly beaten whites of the eggs. Beat until the mixture holds its shape. Brown slightly in a rather hot oven.

## Producing Poultry Meat

Experiments at the Central Experimental Farm, Ottawa, have shown that it takes 28½ pounds of mixed grain to grow Barred Rock cockerels to twenty-six weeks of age, weighing an average of 6.68 pounds. That is, with a good class of Barred Rock chick, 4½ pounds of grain can be converted into one pound of meat. The lighter breeds consume an average of six pounds of feed for each pound of gain in meat.

England's oldest working bootmaker has died at Bury St. Edmunds, aged 90. He had a curious stone, 120 years old, on which he engraved the soles and top leather.

Coffee grown in Haiti this season weighed over 60,000,000 pounds.

## Unsinkable Lifeboats

Many Devices Used Make Them Expensive To Build

"Wonder-boats" is a description that has possibly not yet been applied to the craft of the Royal National Lifeboat Institution, yet it is not inappropriate. In the Institution's fleet are boats that can free themselves of water as rapidly as it comes aboard when every one of the watertight compartments has been damaged and open to the sea.

If capsized they can right themselves and empty out all water in 25 seconds, and in the case of motor-propelled boats, continue running when the engine-room is flooded.

I was given these facts when I talked to Lieut.-Colonel C. R. Satterthwaite, secretary of the Royal National Lifeboat Institution, about the boats that during the last few days have saved many lives from the fury of the easterly gales, states a London newspaper representative. I also learned how it is that a boat full of water can immediately empty itself.

"On the bottom of most boats in our Fleet and on the sides of some of the latest models," said Colonel Satterthwaite, "are relieving valves or scuppers. These only allow the water to pass one way. As fast as the sea fills the cockpit of a lifeboat it is automatically emptied out at the bottom or sides. That is perhaps not the most remarkable feature of lifeboat construction.

"Not many people know that a lifeboat can have twenty holes knocked in each side, and yet still be able to go on with her work. This is due to the fact that a lifeboat is divided into from seven to fourteen watertight compartments, and has from 70 to 160 air-cases. These air-cases made her practically unsinkable, and a boat can be kept afloat by these even when each of the watertight compartments is open to the water. In view of these devices it is hardly surprising, perhaps, that the modern motor lifeboat costs from \$3,500 to \$9,000."

## Fruit For Drought Areas

Forty-four carloads of fruit and vegetables have been supplied by growers of the Okanagan Valley to drought-stricken districts on the prairies. Twelve hundred boxes of McIntosh were taken from common storage at Peniticon and shipped to Mankato, Sask.

## A PLAN TO CURB MASS BUYING IS SUGGESTED

Ottawa.—A national control council to curb mass buying by chain and department stores and unfair, unethical business practices was proposed to the Stevens committee of the house of commons by George Hougham of Toronto, secretary of the Ontario Retail Merchants' Association.

After describing big-buying organizations as a social menace to Canada as a whole, the Toronto official suggested a federally-controlled council to supervise industries generally. With each industry would be a board, again supervised by the Dominion in the interest of the consumer, to establish fair-trading codes and enforce wage and hour regulations.

A picture of misery and destruction left in the wake of mass buying and mass advertising by chain and department stores was painted by Warren K. Cook of Toronto before the committee.

In a many-sided indictment against department stores, Mr. Cook, president of the Canadian Association of Garment Manufacturers, charged they drove legitimate manufacturers out of business through what he termed unscrupulous competition. They placed tricky and misleading advertising in newspapers. They stole the styles and models of importers and manufacturers, handing them over to their own factories. Through feature sale advertising they drove down prices and "fooled the purchaser by offering a bait to the few to make a profit from the many."

Hon. H. H. Stevens, chairman of the committee, indicated auditors were at work on department store books and would be called before the committee later. He made only a passing reference to them.

## General Election In Alberta Is Forecast

### May Be Called Soon After Present Session Closes

Calgary.—A general provincial election in Alberta, to be called soon after the close of the present session of the legislature, is forecast in a story published by the Calgary Alberta.

A cabinet shake-up immediately following the present session, continuance of a non-committal policy in regard to the Co-operative Commonwealth Federation throughout the present session, and a general election campaign with one factor standing on a platform of social legislation on a wide scale and of urging drastic changes in the British North America act are forecasts contained in the Alberta story.

## Air Route To Canada

### Direct Route Via Newfoundland Under Study By British Government

London.—A direct air route to Canada via Newfoundland is under study by the British, Canadian and Newfoundland governments, the house of commons was told by Sir Philip Sassoon.

Sir Philip, under-secretary for air, presenting the air estimates, remarked an entirely new project for which a provision of \$30,000 is contained in the estimates is a weekly service between New York and Bermuda, in which Imperial Airways and American interests will co-operate.

Sir Philip also said it was hoped to have the British-Australia service in operation by the autumn.

### Theft Of Gold

London.—A modern miracle was discovered at a London bank. Bank attendants opened a box which contained 930 fine ounces of gold, worth \$2,300 when it left Cape Town, South Africa, Feb. 16. The box still weighed 930 fine ounces but its value had dropped to \$230—figuring the box itself worth \$2.30. The box contained cement.

### Binder Twine Guarantee

Edmonton.—The total sum outstanding at the end of 1933 on binder twine guarantees given by the provincial government was \$47,520, according to information given to the Alberta legislature by Hon. R. G. Reid, provincial treasurer, in replying to questions asked by A. P. Mitchell (Lib., Leslie).

W. N. U. 2037

## Lord Aberdeen Dead

### Came To Canada As Governor-General In 1898

Edinburgh.—The Marquess of Aberdene and Temair, 87, former governor-general of Canada, died at his residence, the House of Cromar at Tardenois, Aberdeenshire.

John Campbell Hamilton Gordon, first Marquess of Aberdeen (created 1915), was governor-general of the Dominion from 1898 to 1899. He is succeeded by his son, the Earl of Haddo.

His marriage with the former Lady Marjoribanks, who survives, was also held up as a remarkable example of domestic felicity. She was an active partner in all his endeavours. Baroness Gordon of Cromar, Lord Aberdeen had been lord high commissioner to the general assembly of the Church of Scotland and lord-lieutenant of Ireland. He returned to Ireland in 1905 and occupied the post again for 10 years.

## To Correct Abuses

### Want Investigation Of Livestock Industry In Ontario

Toronto.—The agriculture committee of the Ontario legislature moved to correct alleged abuses in packing plants and stockyards. Without a dissenting voice, the committee passed a resolution asking the Stevens committee at Ottawa to thoroughly and immediately investigate the whole livestock industry of the province.

Numerous complaints were presented to the committee by drivers, claiming there was no competition among buyers at the stockyards, the large firms' buyers refusing to bid against each other, that bids were cut after the market closed, that the bulk of shipments went direct to the abattoirs without being subject to bidding, and that handling charges were so heavy the farmer's return dropped below cost.

## Uncover Arsenal

### Illegal Distribution Of Arms And Munitions In Montreal

Montreal.—A body blow at illegal distribution of arms and ammunition to criminal bands in Montreal was struck by provincial police in an instantaneuous raid. The instant 25 armed revolvers, 1,000 boxes of cartridges, five rifles, three shotguns, 20 daggers, 25 blackjacks and a number of axes in a house in suburban Outremont.

Three months of careful investigation into underground circulation of deadly weapons were climaxed by the raid, Chief Louis Jardelle of the detective department, provincial police, said. A man declared to be a leading figure in Montreal underworld, was in the house at the time police descended upon it and was withheld under arrest. His name was withheld pending arraignment.

## Quota For Cattle

### Western Livestock Promoter Sees Disaster Ahead For Market

Calgary.—Canada's quota of 20,200 head of cattle for shipment to the United Kingdom will be exhausted long before the six months' time limit expires, in the opinion of Jack Byers, Western livestock exporter.

First set at three months, the quota was extended to six, following protests of Western stockmen. Up to the present the number of cattle shipped from Canada totals 8,341 head of which Western Canada sent 3,114 head. During the same period a year ago shipments from the Dominion aggregated 4,798 head.

Mr. Byers sees disaster ahead for Canadian markets if the United Kingdom market is closed to the Dominion exporters.

## Fighting Insect Pests

### British Guiana Starts Battle To Save Sugar Crop

Georgetown, British Guiana.—A grim battle between insects through which entomologists hope to eradicate the dead moth bore pest which annually destroys large sections of British Guiana's sugar crop, has been started.

Thousands of parasites for which Dr. J. G. Myers risked his life through the jungles, swamps and rough waters, have been released on five British Guiana plantations, and it is hoped the pests that cost the colony's premier industry thousands of dollars yearly, will be annihilated.

Release of thousands of "Amazonas flies" was the final phase of the relentless task undertaken by Dr. Myers and his assistants.

## International Distrust

### Henry Ford Says Munition Makers Responsible For War

Fort Myers, Fla.—Charging that a small group of men were responsible for war through the manufacture of munitions and by fostering international distrust, Henry Ford thinks United States Senator William Borah had "the right idea" in his attack on the \$500,000,000 United States navy program and other army and navy construction.

"These people in general don't want war," said Mr. Ford, "but it has been forced on them by munition makers looking for enormous profits through the sale of arms."

"I do not pay much attention to the talk about war, for I have found out that there is not much I can do about it as an individual. Outlawing war depends upon the people. In the past they have followed the war makers. If we could get rid of the approximately 100 men responsible for war in this world, the people would enjoy peace."

## NEED A BETTER SYSTEM FOR HANDLING RELIEF

Ottawa.—Immediate action with a view to evolving a permanent system of handling unemployment relief and other pressing social problems is urged in a statement issued by the Canadian Council on Child and Family Welfare. The statement is an analysis of relief conditions now existing and a series of suggestions for the evolution of permanent measures of social aid to those unable to support themselves.

Any effective scheme of a permanent character, the statement says, must recognize frankly that many people now out of work can never be absorbed again in gainful employment and that unemployment insurance is not only not a cure for the present condition, but will fall short of meeting the problem on a long-term basis.

None-the-less, the council believes, unemployment insurance should be initiated at the earliest possible moment. It should be on a contributory basis and be actuarially sound. At the same time the present Dominion, provincial, and municipal relief organizations should be re-cast on efficient lines.

Causes of dependency other than unemployment, such as sickness, accident, and old age should be tabulated and insurance of a contributory character provided for relief in such cases. Other causes of dependency which can not be worked into an actuarial system would have to be met by a permanent system of direct relief.

To avoid the debilitating effect of living on relief a program of relief work should be launched.

Establishment of those of the unemployed with experience in agriculture on the land, is urged. The statement says the industrialization of the country in recent years and the relief provided in the cities have caused a drift cityward and the establishment of a better equilibrium between urban and rural population demands particular attention.

## Parachute Saves Student

### Young Canadian Pilot Had Narrow Escape In England

Bishop's Waltham, England.—A young Canadian student pilot, W. S. Steele, 21-year-old resident of Sudbury, Ont., taking instructions under the plane while Hell was making an Austin pilot named Hell, fell out of the plane while Hell was making a slow roll 4,000 feet up. His safety straps gave way as the plane was upside down.

"I fell at terrific speed," Steele said afterwards. "I did three somersaults, but then I was able to pull the ripcord of my parachute. It was perfectly horrible until the chute opened, but it answered beautifully and I came down comfortably, just missing some tall trees." He was none the worse.

## THE HOME-COMING TO TRAGEDY

### The Shock Of His Father's Tragic Death Is Plainly Mirrored On The Face Of Crown Prince (now King) Leopold Of Belgium

Georgetown, British Guiana.—A grim battle between insects through which entomologists hope to eradicate the dead moth bore pest which annually destroys large sections of British Guiana's sugar crop, has been started.

Thousands of parasites for which Dr. J. G. Myers risked his life through the jungles, swamps and rough waters, have been released on five British Guiana plantations, and it is hoped the pests that cost the colony's premier industry thousands of dollars yearly, will be annihilated.

Release of thousands of "Amazonas flies" was the final phase of the relentless task undertaken by Dr. Myers and his assistants.

The shock of his father's tragic death is plainly mirrored on the face of Crown Prince (now King) Leopold of Belgium, (left), who is shown being received on his arrival in Brussels by Premier Count Broqueville. Leopold was vacationing in Switzerland when he received the news of the death of his father.

## INDIAN APPOINTMENT

## Grading Hogs And Eggs

### Regulations To Be Studied By Commissions Committee

Ottawa.—The regulations for grading hogs and eggs will be studied by the commons committee on agriculture. F. H. Pickel (Cons., Bronte-Mississauga), brought the matter before the house in a resolution asking that the grading laws be amended. After considerable discussion the house accepted the amendment of Grote Stirling (Cons., Yale, B.C.) referring the question to the committee.

The government hog graders were often "pals" of the packers and favored their friends as against the farmers in grading the animals brought to the abattoirs, Mr. Pickel declared. The egg graders were also frequently against the farmers.

## Prince Albert National Park

### Recommend That Province Of Saskatchewan Eliminate Claim

Prince Albert.—Recommendation that the province of Saskatchewan eliminate its claim insofar as it affects Prince Albert national park, as it is preferable the park be administered by the federal government, was sent to Regina after being approved by the local board of

trustees.

It arises from Saskatchewan's claim for compensation for alienation of land for the park. The Dominion countered before the probing commission in Ottawa by offering to hand the park over to the province

## NO AGREEMENT TO CONTROL HOG PRICES IN CANADA

Ottawa.—There is no agreement among meat packing firms in Canada, J. S. McLean, president of Canada Packers, told the house business inquiry. No efforts are made to curb prices for the simple reason the packers make money on a rising market.

At all long, the Toronto head of Canada Packers gave no definite evidence before the committee investigating general labor conditions and business practices. His company will be investigated by auditors, the profits listed, salaries disclosed and the capitalization examined.

Canadian hog prices are dependent upon the English prices for bacon, set weekly at a conference in London, the committee was told. When bacon prices advance, hog prices climb, although only 10 per cent of Canada's hog production is exported to the United Kingdom market. Canadian packers are not informed in advance of the English bacon price and often make a wrong guess on the trend.

From his 30 years' experience in the meat packing industry, Mr. McLean said no changes in marketing practices would increase by one dollar a pig to the farmers. He could not agree with Hon. H. H. Stevens, minister of trade and commerce, and E. J. Young, Liberal member for Weyburn, that the practices of setting arbitrary differentials for lower grade hogs worked against the farmer. Nor could he agree with suggestions that all hogs be graded in stock yards and buyers permitted to take their pick. He was in favor of the present system of buying a carlot of mixed grades and taxing the lower standards 50 cents to \$2.50 a head.

The influence that has lifted hog prices in a year from \$3.25 to \$9.25 has been the steady outlet for bacon in the English market, Mr. McLean said. The reason Chicago prices were only about \$4.50 was there was no foreign outlet for American bacon. And the same reason accounted for low prices for Canadian bacon—if a foreign market could be found for Canada's annual surplus of 100,000, prices would go up four or five cents a pound.

The packing official estimated the trade agreement negotiated between Canada and the United Kingdom at the Ottawa conference, placed \$32,000,000 in the pockets of Canadian farmers last year through enhanced hog prices.

A conflicting picture of Canadian packers from a financial viewpoint was painted before the committee. In the first place, Mr. McLean said, "a very large profit" had been made in recent months because of increasing hog prices. Later he told the firm paying a woman employee \$11.80 for a 50-hour week, over a six-month period. The woman had three children, support and was forced to apply to city of Toronto for relief.

## SMITH ACQUITTED BY JURY ON SEDITION CHARGE

Toronto.—After deliberating six hours and 15 minutes a jury here acquitted A. E. Smith, general secretary of the Canadian Labor Defense league, of a charge of sedition in an article involving Prime Minister R. B. Bennett. He was alleged to have charged the prime minister with ordering the shooting of Tim Buck, Communist prisoner at Kingston penitentiary, during the convict insurrections of 1932.

Smith, veteran Methodist church minister of Brandon, who discarded his clerical garb during the Winnipeg labor riots of 1919, slept on a wooden bench in a city hall jail cell during the last hour of the jury deliberations. Shortly after 6 o'clock he was aroused by sheriff's officers and led to the prisoner's dock in the assize court.

The foreman of the jury, who had led the 11 jurors back into court twice after the charge was made by Mr. Justice Hugh E. Rose shortly before noon pronounced the words "not guilty".

The prisoner at the bar, a 62-year-old labor champion, heard the words with the same impassive expression he had maintained throughout the four-day trial.

There was no comment from the bench, none from E. J. McMurray, K.C., who came from Winnipeg to defend the man in the name of "free speech," nor from Peter White, K.C., who attacked the "malinity" behind Smith's alleged utterances.

A free man again, the defence league secretary walked unescorted from the court. Out in the hallway he was met by smiling defence counsel, among whom was Leo Gallagher, prominent Los Angeles barrister, who represented Marinus van der Lubbe in the Reichstag fire trial in Berlin last year. He acted in an advisory capacity for Smith.

Listening to the evidence of the convict Communists were Smith's wife and sun-hairied daughter. Throughout the trial they occupied the front bench of the courtroom, directly behind the prisoner's box, watching, as intently as the middle-aged accused, the lengthy proceedings.

## Rumors Of Coup

### Startling Disclosures Are Made In Stavisky Case

Paris.—Three startling disclosures involving secret symbols, the murder of a prominent judge, and rumors of a coup d'etat were made by officials investigating the \$40,000 pawnship bond scandal of the late Serge Stavisky.

Members of a parliamentary committee quoted Jean Chiappe, former prefect of Paris police, as saying former interior minister Eugene Frot planned a coup to gain the leadership of the government during recent riots that formed a bloody sequel to the Stavisky affair.

M. Frot categorically denied the allegations, which he described as "pure romance."

Another development was that in their efforts to find a "rival of higher-ups" in the swindle, studied the mysterious symbols Stavisky used to designate cheque stubs in his secret payroll.

The third was that police sought the "double of Judge Albert Prince, key man in the Stavisky investigation, who was slain between here and Dijon recently, in the belief that a man strongly resembling the murdered magistrate had arrived in Dijon instead of Prince.

## Treasury Bills Sold

### Interest Rate Believed To Be Lowest On Record

Ottawa.—Dominion of Canada Treasury bills to the amount of \$15,000,000 were sold by public tender at what was believed to be the lowest interest rate on record for Canadian short term financing. The bills were in two series, \$2,450,000 for three months at an average cost to the government of 2.85 per cent, and \$12,550,000 for eight months at an average cost of 3.12 per cent. Dated March 1, they mature June 1 and November 1.

## Will Hold Four Courts

London.—The king and queen will hold four courts at Buckingham Palace on May 15 and 16 and June 12 and 13, and an afternoon drawing room at the palace of Hollyroodhouse during the week commencing July 2.

## AN UNPARDONABLE SIN:

To live in a town;  
To make a living off it, or out of it;  
To educate your children in it;  
To get everything you possibly can out of it—  
And put absolutely nothing in it.

## EDITOR IN TROUBLE AGAIN.

An editor (not in the "Crow's Nest Pass") went to attend a party given by one of his readers, when a few weeks ago the home had been blessed with a new baby. The hostess met him at the door and after the usual salutation, he asked after the baby's health. The lady was deaf, and had a bad cold, and thinking he was a king about herself, answered that although she usually had one every winter, this was the worst one she had ever had; it kept her awake at night a great deal, and at first confined her to her bed. Then, noticing that the editor was acting very strangely, she said she could tell by his looks and actions that he was going to have one just like her's and asked him to come in out of the draught and sit down.

## HILLCREST HAPPENINGS

Miss Irene Turner was visiting friends at Fernie over the weekend, returning Sunday.

Miss Gwen Hemlock entertained a number of her friends at her home on Wednesday evening. The party of boys and girls enjoyed themselves at playing cards and games, and at dancing. The wee hours of morning saw the party break up, everyone voting the affair an enjoyable one.

Little Miss Dorothy Williams, five-year-old daughter of Mr. and Mrs. W. Williams, celebrated her birthday on Friday by holding a party for her friends at her home.

A hockey game between Hillcrest and Fernie juniors was arranged to be played in the Bellevue arena on Thursday evening last, but the heavy fall of snow on Wednesday and Thursday prevented the Fernie boys from coming down and the game had to be postponed.

A very successful Cinderella dance was held in the Union hall on Saturday evening last. Even though the hockey game in Blairmore drew a large number of people from Hillcrest, there was a good crowd at the dance.

Mrs. Cross and daughter Brenda left on Saturday afternoon for north of Edmonton, where they will reside in future.

During the fine weather last week, the ice in the rink melted away, so the rink has been closed for the season.

## HYMENEAL

The marriage of George Metropole to Lillian Pivot was solemnized at Macleod on Sunday last.

The groom is a popular young man who hasn't done a lick of work since he got shipped in the middle of his junior year at college. He manages to dress well and keep a supply of spending money, because his dad is a soft hearted old fool, who takes up his bad cheques instead of letting him go to jail where he belongs.

The bride is a skinny, fast little idiot, who has been kissed by every boy in town since she was 12 years old. She paints like a Sioux Indian, sucks cigarettes in secret, and drinks mean corn liquor when she is out joyriding in her dad's car at night.

She doesn't know how to cook, sew or keep house.

The groom wore a rented dinner suit over athletic underwear of mink. Friday evening, February 24, in the station silk. His pants were held up by flathead hotel, with E. L. Warburton by green silk suspenders. His number ten presiding at a fairly well attended general meeting. Several important points were discussed and the with the aisle crease polish of following—resolutions were unanimous. In addition to his jag, he mously passed, and will be placed carries a pocket knife, a bunch of before the Fernie association at keys, a dun for the ring and his usual their next meeting: look of imbecility.

The bride wore some kind of white to have sufficient men placed steadily thing that left most of her legs sticking at work in the spring on the corning out at one end and her bonny bin road, to have it widened, ditched upper end sticking out of the other; and gravelled; also that the superintendent be notified to keep trucks off this road during wet or unfavorable weather."

(2) "That the Corbin Liberal Association would support the Fernie association unanimously in its or programme to secure money for public works and release the present method of relief."

(3) "The Association agreed to

## CORBIN HAPPENINGS

defray expenses incurred by a Corbin delegate in relation to phone, calls, telegrams, gas and car hire, the amount of this to be left in the hands of the delegate."

(4) "Corbin Liberal Association wish the Fernie association to use all pressure possible with the government to have taxes and licenses on trucks raised to a point that would be more equitable in competition with railways, especially as they are using the public highways, built at public expense; also that the Fernie association commence a vigorous campaign through the boards of trade, to exert influence on business

people of the district to support the railway instead of trucks."

(5) "Resolved that the letter from Mr. Porter, road foreman at Michel, be discussed with the Fernie Association in relation to provincial equipment and other points mentioned in the letter."

Buster Barnes, Alfred Barnes, Sam Macdonald and Fred Deschênes were in

town last week from the Flathead ors went to Mrs. A. Teberghen and Mrs. James Sanderson, first and con-

solation, respectively.

Several hockey fans attended the game at Blairmore on Saturday night, and reported the roads rather icy.

The St. Patrick's dance will be held on March the 15th, and is to take the form of a hard-times masquerade. There will be prizes for the best representative and best costume.

Mrs. Robert Elliot and Mrs. A. Shepherd spent Sunday with friends in Natal.

The C.G.I.T. bazaar and tea is to be held on April 3rd in the B. & B. Hall. There will be fancy work, home cooking, candy, tea and a fish pond. The girls are working hard with a camping trip as their goal this summer.

Mrs. William Goss was hostess on Wednesday evening at a very delightful bridge party of five tables. Hon-

The death took place at Barrhill, near Lethbridge, on Wednesday of last week, of Minnie Belle Brewer, school teacher, widow of the late T. R. Brewer, for some time quartermaster sergeant with the R.C.M.P. Mrs. Brewer was 44 years of age. Mr. and Mrs. Brewer for some time resided in Blairmore.

## COWLEY HAPPENINGS

Mrs. P. Peterson is paying a short visit to her daughter at Kelowna. A very successful masquerade dance was held at the Olin Creek school house on Friday night, when many fancy and comic costumes were worn, creating a spirit of mirth, suggestive to say "with the dance while youth is gay." Prizes for costumes were awarded to Mrs. H. Bougrole and Mr. E. Lefebvre, who masqueraded as a Fiji Islander and Spanish Senator. Music was furnished by L. Burles, A. Maufort and T. Wright.

The local Masons were at home to their friends in their hall on Friday night, when around sixty persons were present. The early part of the evening was devoted to cards, prizes being won by Miss Jean Morrison, ladies' first; Mrs. Malcolm McMillan, consolation; Wilfred Fortier, gents' first; H. C. Morrison, consolation. After cards, an appetizing luncheon was served by the wives of lodge members, after which the hall was cleared and a lively dance was indulged in for a few hours to music provided by Miss Irma McDonald (piano), Alvin Murphy and Arthur Justian (violins) and Charles McKerrel (accordian).

The home of Mr. and Mrs. Harlan Lank was a centre of merry making on Wednesday evening, when the silver wedding of Mr. and Mrs. C. W. Poulsen was celebrated, with around sixty friends present to do justice on the auspicious occasion. Entertainment during the early part of the evening took the form of court whist, with prizes awarded as follows: Mrs. E. Hewitt, ladies' first; Miss Rosella Shambrook, consolation; H. Crawford, gents' first; P. Burles, consolation. After cards, an appetizing supper was enjoyed, at the close of which Mr. and Mrs. Poulsen went through the marriage ceremony, with Mr. W. A. Cochrane officiating, while G. Shambrook acted as best man and Mrs. Shambrook matron of honor. In honor of their twenty-fifth wedding anniversary, the happy couple were presented with a silver tray, bearing a silver cream and sugar. A lengthy musical programme brought this pleasant event to a close.

## 1934 Chevrolet has New Engine and Knee Action Wheels

## MANY IMPROVEMENTS

The Chevrolet Six for 1934, with an engine of new design delivering 80 horsepower, with knee-action front wheels, and with increased all-round performance, is considered the most extensively improved annual model since Chevrolet became a Six. The new front wheel springs are enclosed in an oil-filled housing attached rigidly to the frame, making a neat and efficient type of individual suspension. Larger and more luxurious bodies by Fisher, with improved no-draft ventilation, are offered. The picture above shows the Master Six special sedan, and below is seen one of the coupe models.

The Chevrolet Six for 1934, perhaps the most extensively improved annual model since this car was first built in 1926, has a 260 cubic inch six cylinder engine. The new Chevrolet has an 80 h.p. engine, which, according to General Motors of Canada Limited, is the most powerful and efficient ever to be produced by Chevrolet. The engine, incidentally, is of a most interesting type and is the outcome of three solid years of research and testing. The purpose of all this was to provide a smooth, quiet and rapid and the results seem to be really remarkable.

Basic driving performance from the new engine, the model of which presents a number of distinct chassis improvements, most interesting of which is the new Knee-Action front wheel suspension of a type which is said to be claimed in racing never before thought possible in a motor car. This independent front wheel springing gives not only improved riding but a host of other advantages, steering being greatly improved and wheel fight completely eliminated.

A new distribution of weight, in which the engine is located far forward, and the rear seat passengers are seated in a position ahead of the rear axle, combines with the "Knee-action" to make the ride of the new 1934 Chevrolet astonishingly smooth, comfortable and enjoyable.

In addition, the chassis, which has been a feature of recent Chevrolet, is further accentuated by an increase to 112 inch wheelbase and in the treatment of the car design itself.

Fisher Bodies—The 1934 line of longer cars again features Fisher No-Draft Ventilation in all closed body types. All bodies are approximately 3 1/4 inches longer, with the exception of the 1934 inches and 2 inches added to the width of the closed-body front doors. On the interior of the closed bodies, the increased overall length is divided to provide a large leg room in the front and more room in the rear.

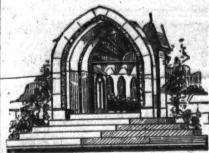

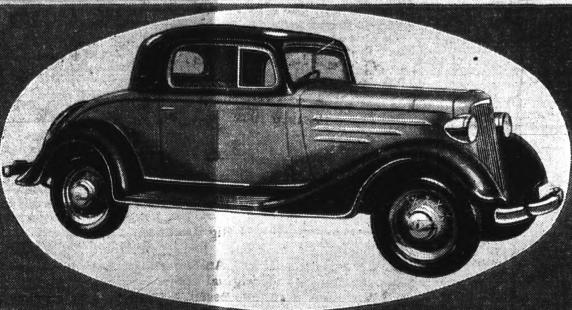

Chevrolet's 1934 power plant is not only more powerful, but smoother, quieter and more economical than any of its predecessors. With the new engine and stroke of 3 1/2-16 x 4 inches, this year's model has a maximum output of 80 horsepower at 3,300 revolutions per minute and produces a torque of 150 foot-pounds through a speeded range from 900 rpm. to 2,200 rpm.

One of the most important improvements effected in this remarkable motor is the "blue flame" cylinder head development work which has been done by the engineers of the company, the perfection of which involved literally thousands upon thousands of grueling test miles.

The "blue flame" of this new type of head design was discovered three years ago when Chevrolet engineers were asked to design a race-type engine with a very small piston displacement and which would deliver

A woman called at our office a few days ago, asking if we published the red paper. We suggested that she move up west a few blocks.

That is a fine sentence of Emerson's where he says: "Nerve yourself on the affirmative," which means we are not to go about saying "I cannot do this, and I cannot do

IMAGINE HOW FASCINATING THIS MODEL IS CARRIED OUT IN THE NEW LOOKING PRINTS

Every woman knows she can't have too many gay little frocks of crepe silk print for spring.

To-day's dress is just as charming as ever to be immediate as well as for spring in navy and powder blue print.

And incidentally, it's slimming to the figure, and just right for a girl.

One cut-to-the-skin is one of its star qualities. The bodice is quickly fashioned with its, ruffled sleeves and draped neckline.

Then again, you might prefer a dress of plain crepe, black, navy, bright red or soft brown shade would prove charming.

Style No. 498 is designed for sizes 14, 16, 18, 20 years, 36, 38 and 40 inch bust.

Size 16 requires 3½ yards 36-inch material.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap care.
